- High-Performing Display Readability and Durability
- Seamless Large Screens with No Bezel
- Higher Viewing Angle

Transparent LED Display

- With a permeability rate of over 60%
- Convenient installation
- The visual angle can reach 740°
- Light weight

Digital Floorstand & Kiosk

- Available for touchscreen or non touchscreen
- Available for additional queue apps
- Available size for display 32" – 55"
- Available for custom enclosure

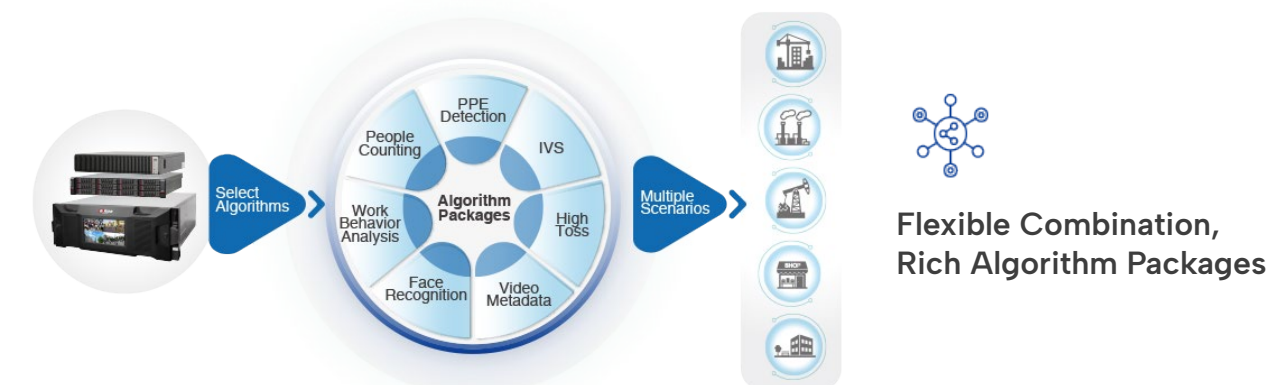

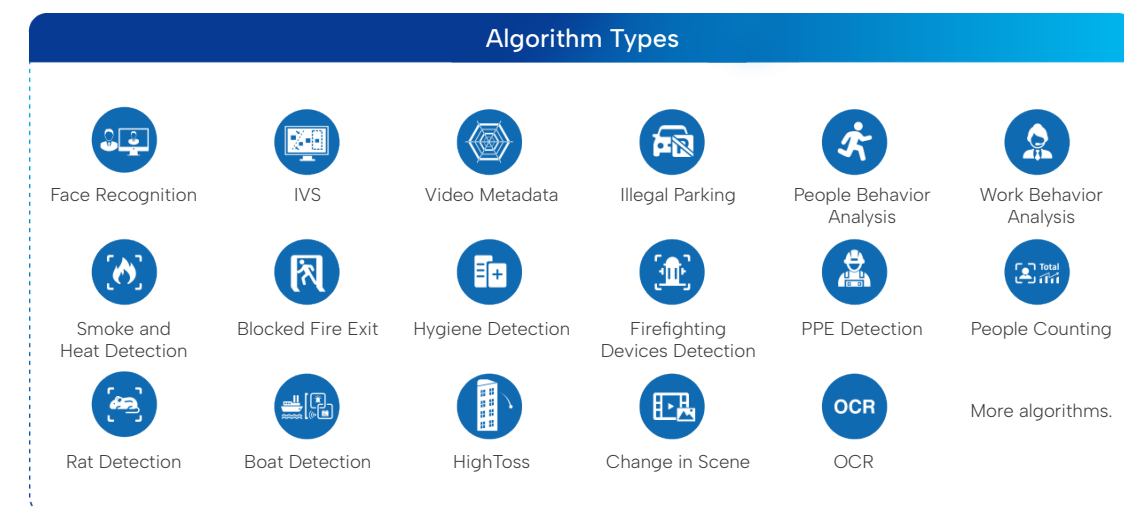

Intelligent Video Surveillance Server (IVSS)

One server for multiple industrial scenes.

Dahua IVSS Industrial Algorithm

As the industrial algorithms become more and more diverse, the challenge lies in how to quickly and flexibly load the required algorithms onto devices to adapt to different industrial scenarios.

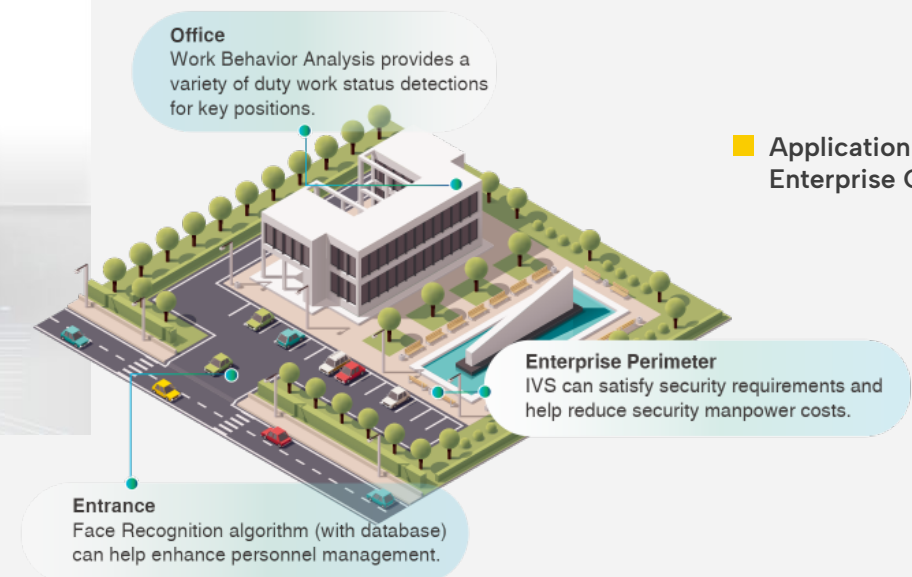

With the industrial algorithm shelf firmware, IVSS can freely combine different algorithms just by downloading the algorithm packages, meeting the actual requirements of various application scenarios.

tap or scan for more.

Multiple Industrial Scenes

Application Scenario : Enterprise Campus

Pain Point

- Security personnel in the enterprise campus requires large budget and manpower.
- Difficult to report alarms in time during emergencies.
- Difficult to manage a large number of employees.

Industrial Algorithm Solution

Application Scenario : Construction Site

Pain Point

- Safety on the construction site is very important. Monitoring proper wearing of PPE is challenging.
- Access management for construction vehicles is difficult.
- Machineries such as electric/gas welding equipment pose potential fire hazards.

Industrial Algorithm Solution

Build Your Own Privacy

SON-T Film perfect for your comfort and privacy.

tap or scan for more.

What is SON-T Film?

is a technology that allows the color of the film to change from transparent (on) to opaque (off) when an electric current is applied.

Whats benefit?

Privacy | Lighting and Shading | UV and infrared protection | Energy saving

How to Operate?

use remotes, switches, sensors and can be integrated with an automation system.

Where SON-T Can be Installed?

- Meeting Rooms.
Provide privacy when meeting with clients.

- Outdoor Windows.
Save energy by not having to turn on the lights and stay comfortable with UV Protection

- Car or Bus.
Provides privacy and comfort while in the vehicle.

Any applications of SON-T Film

• Efficiency Room with interactive Projector

Son-t Film On + Interactive Projector Off

Son-t Film Off + Interactive Projector Off

Son-t Film Off + Interactive Projector On

• Efficiency Promotion Cost with Laser Projector
