SIMA HIGHLIGHT FEATURES

Highly Integration

Easy to Service | More Reliable | Hot-Swapping

Power supply, receiving card and hub board all integrated into 1 board with no extra components, which can reduce connecting wires, increase stability and make maintenance easier.

Environmental Friendly

V-0 Flame retardant | RoHS Compliant

Smart power supply allows Self-adaptive voltage distribution adjustment, and support constant dynamic output. Voltage will be stabilized at saturation point, which better reduce power-consumption. The cabinets are also RoHS compliant.

Whole Cabinet Delivery

Components Pre-installed | Original Parts | 16:9 Display Ratio

Pre-installed all-in-one cabinet, no need for on-site components assembly. Factory original cables and parts with guaranteed quality. 8:9 display ratio, achieve 16:9 standard ratio with ease. Whole cabinet only weighs 1.1kg.

Handy Installation

Thin & Light | Full-frontal Service | 16:9 Display Ratio

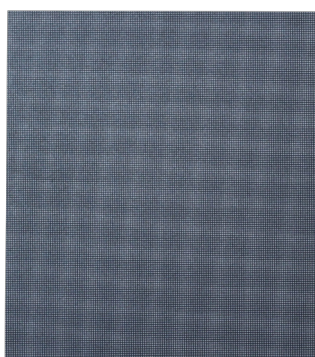

1.1kg lightweight cabinet, which can be installed using magnet, support full-frontal service with air suction tool. 45° corner cut allows 90° splicing. Increase installation efficiency while lower overall operation cost.

Easy to Use

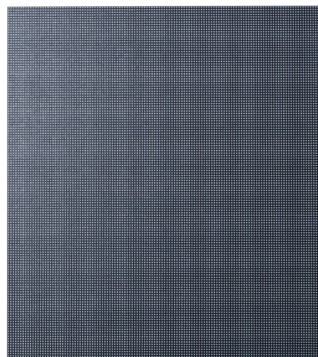

Support screen control through remote/mobile devices, giving superior interactive experience. Integrated system allows local apps installation, such as wireless screensharing and mobile screen control app.

Product Parameters

Product Model	SM1918H	SM1925H
Pixel (mm)	1.8	2.5
Cabinet Resolution (dots)	171×192	128×144
Maximum Power Consumption (W/m ²)	295	295
Brightness (nits)	500	600
Cabinet Size (W×H×D) (mm)	320×360×39	
Cabinet Weight (kg)	1.16	
Contrast	6500:1	
Viewing Angle (H/V°)	170 °/H, 170 °/V	
LEDs Life Time	≥100000h	
Maintenance Mode	Front
